**MESF** Student membership was included when you signed on for your **MESF** Certificate 1 Basic Installation qualification

If you have at least two years employment in the industry you can become an **MESF** Vehicle Enhancement Technician when you have passed your **MESF** Certificate 2 Advanced Installation (grades are subject to qualifying conditions - see the application form).

These grades will be important to you in your career.

The **Vehicle Enhancement Certification Programme** offers **MESF** installation certification at three levels: **MESF** Certificate 1 Basic Installation, **MESF** Certificate 2 Advanced Installation and **MESF** Certificate 3 Specialist Installation in Security or Audio. All require the passing of a written examination and regular renewal.

Although the subjects tested in the **MESF** Certificate 2 Advanced Installation examination are advanced, you must still study your **MESF** Study Guide 1 Basic Installation as well as the **MESF** Study Guide 2 Security Installation and **MESF** Study Guide 3 Audio Installation.

Qualifications gained as part of the **VECP** are much sought after in their own right but are also important as evidence of underpinning knowledge for other national qualifications.

**MESF** qualifications have advantages for every one, technicians demonstrate skills and technical knowledge at all levels, employers show customers they care about quality, manufacturers are satisfied their complex products are installed by skilled workers.

Consumers are assured that the products and vehicles they have invested in are all receiving the care and attention of experienced, qualified and professional technicians.

**MESF** Technicians have the knowledge

The **MESF** Certificate 2 Advanced Installation qualification can be achieved by self study or through a tutored course. Both methods use the **MESF** Study Guide 2 Security Installation and **MESF** Study Guide 3 Audio Installation as well as **MESF** Study Guide 1 Basic Installation you already have as learning aids to gain the qualification.

This is what you will find in your
