

MESF CERTIFICATE 1 BASIC INSTALLATION

Vehicle Enhancement Certification Programme

Motor industry recognised qualifications for installing electronic devices into vehicles

MESF Self Study Course 2007

MESF Certificate 1 Basic Installation Qualification Self Study Course

MESF Study Guide 1 Basic Installation and test. Study at your own speed and take the test when you are ready. No need to attend a classroom session for the test. Recommended for beginners and experienced workers wanting a qualification who can learn on their own.

MESF QAA Tutored Course Prospectus for 2007

For 2007 there are three ways to gain your MESF Certificate 1 Basic Installation QAA qualification.

MESF Certificate 1 Basic Installation QAA Qualification Course A

Three consecutive classroom days and test with the MESF's tutor. Recommended if you already have some experience working in the industry.

MESF Certificate 1 Basic Installation QAA Qualification Course B

Nine month's Distance Learning with progress tests and access to the MESF's tutor during the term. Final classroom revision day and test. Recommended if you have little or no experience in the industry.

MESF Certificate 1 Basic Installation QAA Qualification Course C

One classroom revision day and test with the MESF's tutor. Recommended if you have experience working in the industry plus a very good knowledge of electrical theory. This course is also for you if you are renewing your MESF Installer qualification and want a revision before the test.

Classroom days are held at our Staffordshire training facility

May 2007:

Tuesday 22nd

Course A Induction/Study day

Wednesday 23rd

Course A Study day

Thursday 24th

Course A, B and C Revision and Test day

July 2007:

Tuesday 17th

Course A Induction/Study day

Wednesday 18th

Course A Study day

Thursday 19th

Course A, B and C Revision and Test day

September 2007:

Tuesday 25th

Course A Induction/Study day

Wednesday 26th

Course A Study day

Thursday 27th

Course A, B and C Revision and Test day

November 2007:

Tuesday 20th

Course A Induction/Study day

Wednesday 21st

Course A Study day

Thursday 22nd

Course A, B and C Revision and Test day

These Vehicle Enhancement Certification Programme tutored courses are recognised by the Institute of the Motor Industry and hold its [Quality Assured Award](#) status.

FROM THE INSTITUTE OF THE MOTOR INDUSTRY

COURSE CONTENT

These courses concentrate on the parts of the MESF Study Guide 1 Basic Installation needed to gain the MESF Certificate 1 Basic Installation QAA qualification. *You will need to have read the MESF Installer Module 1 Study Guide before attending your tutored course to familiarize yourself with the key points to be covered by your tutor.*

ELECTRICAL SECTION
Ohm's Law
Electronic Components
Measurement and Applications

INSTALLATION SECTION
Component Application and Usage
Troubleshooting and Analysis
Installation Techniques
Measurement and Troubleshooting
Power and Hand Tools
Safety Practice and Safety Equipment

The Introduction Section in the MESF Study Guide 1 Basic Installation has more information about preparing for the test and how the test is carried out.

TEST

The MESF Certificate 1 Basic Installation Test is a basic level, 150 question multiple choice and true/false examination broken down into two question sections of 50 (Electrical Section) and 100 (Installation Section) questions. You will need to score at least 60% in both parts to pass. The scores for the two parts are aggregated to determine your passing score; 60-69% is PASS, 70-79% is PASS with MERIT, 80-100% is PASS with DISTINCTION.

By passing the test you achieve your MESF Certificate 1 Basic Installation qualification, your IMI QAA award (if a tutored course) and gain evidence towards your MESF Installation Technician grade. With QAA you will also be invited to take up professional membership with the IMI. Your pass in the Certificate 1 Basic Installation test is valid for three years after which you will need to retake the test or move up to another grade.

AFTER YOU HAVE PASSED YOUR TEST – GET ACCREDITED!

Be ready for future legislation and get accreditation with an MESF Technician grade from the Mobile Electronics and Security Federation. Contact the MESF for more information.

You should consider your passing of the MESF Certificate 1 Basic Installation test as your first major step along your career path. You can progress to the MESF Advanced and Specialist qualifications. You need to attend as many industry courses and seminars as you can. There is the Mobile Electronic and Security Level 2 NVQ to demonstrate your practical skills.

PRICES

	non-member	member
MESF Certificate 1 Basic Installation Self Study	£75.00	£60.00
MESF Certificate 1 Basic Installation QAA Course A	£495.00	£430.00
